

Reading

- Apply growing knowledge of root words, prefixes and suffixes both to read aloud and to understand the meaning of new words.
- Read further exception words, noting the unusual correspondences between spelling and sound and where these occur in the word.
- Develop positive attitudes to reading and understanding of what they read.
- Listening to and discussing a wide range of fiction, poetry, plays, non-fiction and reference books or textbooks
- reading books that are structured in different ways and reading for a range of purposes.
- Using dictionaries to check the meaning of words.
- Increasing familiarity with a wide range of books, including fairy stories, myths and legends and retelling some of these orally.
- Identifying themes and conventions in a wide range of books.
- preparing poems and play scripts to read aloud and to perform, showing understanding through intonation, tone, volume and action.
- Discussing words and phrases that capture the reader's interest and imagination.
- Recognising some different forms of poetry [for example, free verse, narrative poetry].
- Checking that the text makes sense, discussing their understanding and explaining the meaning of words in context.
- Asking questions to improve understanding of a text.
- Drawing inferences such as inferring characters' feelings, thoughts and motives from their actions and justifying inferences with evidence.
- Identifying main ideas drawn from more than one paragraph and summarising these.
- Identifying how language, structure and presentation contribute to meaning.
- Predicting what might happen from details stated and implied.
- Retrieve and record information from non-fiction.
- Participate in discussion about both books that are read to them and those they can read for themselves, taking turns and listening to what others say.

St Joseph's Catholic Primary School

End of Year Expectations for Year 4

This booklet provides information for parents and carers on the end of year key learning indicators of performance for pupils in our school. The statements in this booklet have been identified as **Key Learning Indicators of Performance** as these have the greatest impact on the further development of skills and subsequent learning. They are not the full curriculum we teach in school. You can find this in the National Curriculum by following this link

<https://www.gov.uk/government/publications/national-curriculum-in-england-primary-curriculum>

All the objectives will be learnt throughout the year and will be the focus of direct teaching. Any extra support you can provide in helping your children to achieve these is greatly valued.

If you have any queries regarding the content of this booklet or want support in knowing how best to help your child please talk to your child's teacher.

Mathematics

- Count in multiples of 6, 7, 9, 25 and 1000.
- Find 1000 more or less than a given number.
- Count backwards through zero to include negative numbers.
- Recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones).
- Order and compare numbers beyond 1000.
- Identify, represent and estimate numbers using different representations.
- Round any number to the nearest 10, 100 or 1000.
- Solve number and practical problems that involve all of the above and with increasingly large positive numbers.
- Read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.

Mathematics

- Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate.
- Estimate and use inverse operations to check answers to a calculation.
- Solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.
- Recall multiplication and division facts for multiplication tables up to 12 x 12.
- Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers.
- Recognise and use factor pairs and commutativity in mental calculations.
- Multiply two-digit and three-digit numbers by a one-digit number using formal written layout.
- Solve problems involving multiplying and adding, including using the distributive law to multiply two-digit number by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects.
- Recognise and show, using diagrams, families of common equivalent fractions.
- Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten.
- Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number.
- Add and subtract fractions with the same denominator.
- Recognise and write decimal equivalents of any number of tenths or hundredths.
- Recognise and write decimal equivalents to $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$.
- Find the effect of dividing a one or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths.
- Round decimals with one decimal place to the nearest whole number.
- Compare numbers with the same number of decimal places up to two decimal places.
- Solve simple measure and money problems involving fractions and decimals to two decimal places.

- Convert between different units of measure [for example, kilometre to metre; in centimetres and metres].
 - Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres.
- Find the area of rectilinear shapes by counting squares.
- Estimate, compare and calculate different measures, including money in pounds and pence.
- Read, write and convert time between analogue and digital 12- and 24-hour clocks.
- Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days.
- Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes.
- Identify acute and obtuse angles and compare and order angles up to two right angles by size.
- Identify lines of symmetry in 2-D shapes presented in different orientations.
- Complete a simple symmetric figure with respect to a specific line of symmetry.
- Describe positions on a 2-D grid as coordinates in the first quadrant.
- Describe movements between positions as translations of a given unit to the left/right and up/down.
- Plot specified points and draw sides to complete a given polygon.
- Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.
- Solve comparison, sum and difference problems using information presented in bar charts.

Writing

- Use further prefixes and suffixes and understand how to add them.
- Spell further homophones.
- Spell words that are often misspelt.
- place the possessive apostrophe accurately in words with regular plurals [for example, girls', boys'] and in words with irregular plurals [for example, children's].

- Use the first two or three letters of a word to check its spelling in a dictionary.
- Write from memory simple sentences, dictated by the teacher, that include words and punctuation taught so far.
 - Use the diagonal and horizontal strokes that are needed to join letters and understand which letters, when adjacent to one another, are best left unjoined.
 - Increases the legibility, consistency and quality of their handwriting [for example, by ensuring that the downstrokes of letters are parallel and equidistant; that lines of writing are spaced sufficiently so that the ascenders and descenders of letters do not touch.
- Plan writing by:
 - Discussing writing similar to that which they are planning to write in order to understand and learn from structure, vocabulary and grammar.
 - Discussing and recording ideas.
- Draft and write by:
 - Composing and rehearsing sentences orally (including dialogue), progressively building a varied and rich vocabulary and an increasing range of sentence structures.
 - Organising paragraphs around a theme.
 - In narratives, creating settings, characters and plot.
 - In non-narrative material, using simple organisational devices [for example, headings and sub-headings].
- Evaluate and edit by:
 - Assessing the effectiveness of their own and others' writing and suggesting improvements.
 - Proposing changes to grammar and vocabulary to improve consistency, including the accurate use of pronouns in sentences.
 - Proof-read for spelling and punctuation errors.
 - Read aloud their own writing, to a group or the whole class, using appropriate intonation and controlling the tone and volume so that the meaning is clear.
 - Extending the range of sentences with more than one clause by using a wider range of conjunctions, including when, if, because, although.
 - Using the present perfect form of verbs in contrast to the past tense.
 - Choosing nouns or pronouns appropriately for clarity and cohesion and to avoid repetition.

- Using conjunctions, adverbs and prepositions to express time and cause.
- Using frontal adverbials.
- Using commas after fronted adverbials.
- Indicating possession by using the possessive apostrophe with plural nouns:
 - Using and punctuating direct speech.
- Use and understand the grammatical terminology accurately and appropriately when discussing their writing and reading.
